## Tie Breakers:

- If Two teams are tied in match record- the team winning the head to head match wins the tie and gets the higher seed.
- If three or more teams are tied in match record, the tie will be broken using the following steps in order, without repeating any step (Head-to-Head results will not be used at any time in the process for breaking a three way tie):
  - a. Compare Set (Set) percentage (determined by dividing each team's total sets won in the pool by the total sets played). The team with the highest percentage is first. If some or all of the teams have the same percentage, then:
    - b) Compare Point percentage of the teams still tied (determined by dividing each team's total points scored by the total points scored by all the team's opponents in that pool).
