Under the California Constitution, the free school guarantee prohibits charging students any fee, charge, or deposit for curricular or extracurricular activities that are an integral component of the District or a school site's educational program. There are, however, specific statutes in the Education Code and other laws which identify definite circumstances when fees and charges are permissible. Nothing in the law prohibits voluntary donations, contributions, and fundraising by students and their families to support District and school site programs, so long as monetary donations, contributions, and fundraising activities are not made mandatory for students and their families.
